

PROSURE ARCHITECTS & ENGINEERS

TAILOR-MADE COVERAGE FOR DESIGN PROFESSIONALS

Architects and Engineers engage in a broad range of disciplines which vary from project to project. One job may involve significant bodily injury or property damage exposures should things go wrong. It is critically important for architects and engineers to purchase a Professional Liability Insurance policy which covers their exposures and allegations of professional negligence. Cansure's Professional Liability Insurance protects the design professional and their business against these threats, whether or not they have merit.

Cansure can offer a competitively priced, tailor-made coverage for design professionals, for a variety of disciplines they can offer. As with all of our policies, Professional Liability coverage can be offered on a stand-alone basis or combined with many other products offered by Cansure, including Commercial General Liability, Property, and Environmental Liability.
