

VACANT PROPERTY PROGRAM

COVERAGE FOR PROPERTY WHILE NOT IN USE

In our continued efforts to diversify our product offerings to ensure we meet the needs of our brokers, Cansure has developed a Vacant Property Program.

As the name implies, vacant property is considered one in which there are no possessions pertaining to activity or occupancy and the property is not in use. This is different than an “unoccupied” property where the property is simply idle with the intent of using it.

Our Vacant Property Program is a flexible, modular insurance policy that can be tailored to meet the needs of your clients.

B061.1 (April 2018)
